March 2021

MISSION:

The Steering Committee helps decide the technical direction of the Ansible Upstream project and is also responsible for:

- Avowal of new proposals (feature idea, new policy in collection world)
- New collection requests
- Empower Contributors, Maintainers & Reviewers
- Other technical aspects regarding inclusion and packaging.

RESPONSIBILITIES OF STEERING COMMITTEE MEMBERS:

- Design policy and procedure for the collection world.
- Review things for compliance with the policies.
- Help create our deliverables (community.general, community.network, the ansible-tarball, docs website).
- Ballot on approval changes to policy and new proposals.

STEERING COMMITTEE MEMBERS:

- Toshio Kuratomi (abadger1999)
- Felix Fontein (felixfontein)
- Tadej Borovšak (tadeboro)
- James Cassell (cyberpear)
- John Barker (gundalow)
- Andrew Klychkov (andersson007_)
- Alicia Cozine (acozine)
- Sorin Sbarnea (zbr)
- Jill Rouleau (jillr)
- Brad Thornton (cidrblock)

SCOPE OF THE STEERING COMMITTEE

- For now the scope is limited to collections but in future the responsibilities will expand.

NEW POLICY/PROPOSALS & INCLUSION REQUESTS:

- Requests regarding new collection inclusion requests should be submitted to the below GitHub discussion.

(<https://github.com/ansible-collections/ansible-inclusion/discussions/new>)

- New policy/proposals should be submitted through a new pull request using the below GitHub Repo.

(<https://github.com/ansible-collections/overview>)

- Then create a new issue in [ansible-collections/overview](#) GitHub Repo as a topic and it'll be discussed publicly in the weekly IRC meeting

MEETINGS:

- Ansible Community meeting happens on a weekly basis on #ansible-community IRC channel every Wednesday at 19:00 UTC.
 - Meeting agenda at [Community Working Group Meeting Agenda](#).
- (<https://github.com/ansible/community/issues/539>)
- Minutes of the meeting can be found at the [fedora meetbot site](#) and the same will be posted to [Ansible Devel Mailing List](#) after every meeting.
